III. Other Information:

1. Reasons of loss or inadequate profits:

Net Loss after Tax of ₹ 4495 Lakhs incurred by the Company for the financial year ended 31st March, 2017 was majorly on account of reduction in sugarcane crushing and recovery which resulted into low sugar and ethanol sales and lower power exports and prices.

2. Steps taken or proposed to be taken for improvement:

Sugar being a seasonal industry, the performance of a financial year may not be representative of the next annual performance of the company. The integrated model concept adopted by the Company in regard to Power Co-generation and Distilleries operations is expected to offset the Losses from the sugar divisions of the Company to some extent and also provide a source of revenue. Sugar being seasonal and cyclical in nature, the working results witness a phase of upturn & downturn. The value added by-products like Co-generation of Power, Industrial Alcohol, Ethanol and Specialty Chemicals will also help the Company to improve its business prospects. The Company through process of innovation makes consistent efforts to optimize the resources and increase the margins.

3. Expected increase in productivity and profits in measurable terms:

Sugar business is essentially cyclical and swift changes in demand-supply dis-equilibrium cause volatile changes in pricing power. As such, over the years the Company has shifted its focus from sugar manufacturing to the downstream utilization of its by-products such as Co-generation of Power, Industrial Alcohol and Ethanol. The value added by-products like Co-generation of Power, Industrial Alcohol, Ethanol and Alcohol based Chemicals will help the Company to maximize its profits.
